Embrace Your Space

The Hospitality Collection

Solutions For
Every Space

Hello

Welcome to your Hospitality Brochure, by Sheelin Group Commercial Interiors. We hope that you love what you see between these pages. As Ireland's leading workplace consultancy, we spend our days inspiring clients with unique furniture solutions that make their environments come alive. Hopefully, we'll get the chance to do the same for you.

About Us

What We're About

At Sheelin Group, we stand for aspirational interiors created through trusted partnerships. We believe that form and function can perfectly co-exist and we're committed to bringing workplace visions to life. Ultimately, we believe in solutions for every space. Often, our clients have the nucleus of an idea somewhere inside their heads but they aren't sure how to get it out. We help you spark that idea, conceptualise it and turn it into a stylish reality.

Our ethos is the driving force behind making this happen:

We're Driven

We have unrivalled ambition. This translates into complete dedication to every project we undertake, offering a professional and tailored service to each client. We're committed to making the best use of your space, however challenging that space may seem.

We're Energised

We love what we do and that can be seen in the energy we apply to every single step of every single project.

We're Creative

We see beyond the obvious, creating inventive solutions to a myriad of interior challenges. Where others see problems, we see opportunities.

What do we mean by 'solutions for every space'?

'Solutions for every space' is our customer promise. It means that regardless of the size of your space or the challenges it presents, we'll provide you with solutions that work both on a functional and aesthetic level. We care about how it works as much as how it looks.

Where We Do It

We have successfully completed projects of all sizes for clients in all industries, including hospitality. If you believe in the power of beautiful spaces that also work beautifully, we'd be delighted to inspire you with a Sheelin Solution.

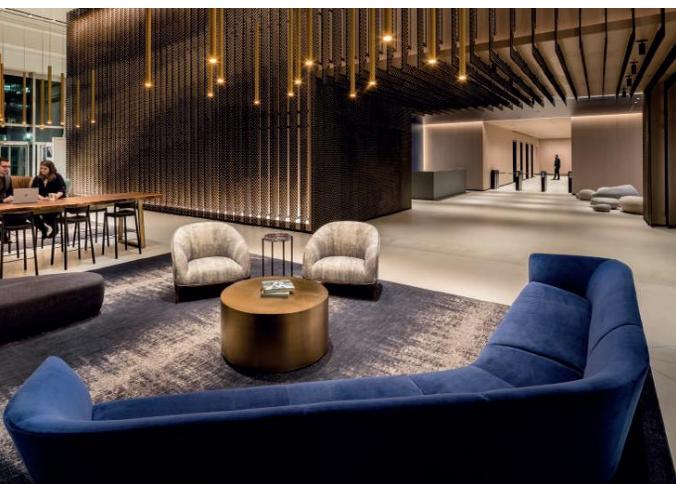

How We Do it

We work closely with owners, operators, contractors, architects and interior designers to understand their requirements from the initial concept stage through to final realisation. Our network is extensive and international, having been built up over many years. To protect our high standards, we are choosy, working only with suppliers who understand how serious we are about quality. Our service is always tailored to your needs and can include the design, specification and procurement of custom interiors, along with the associated project management, installation and logistics services.

Let's have a look around...

Solutions For
Every Space

There's only ever one opportunity to make a first impression. Create that most wonderful welcome, where your lobby reaches out to your guests and every piece of furniture looks its absolute best.

Relax & Revive

Your lounge will mean different things to different people. Embrace the demands placed on it and create a space that invites your guests to sit, relax, roam or simply watch the world go by. With solutions that are easy to move and clean, your space will always be ready for whatever comes next.

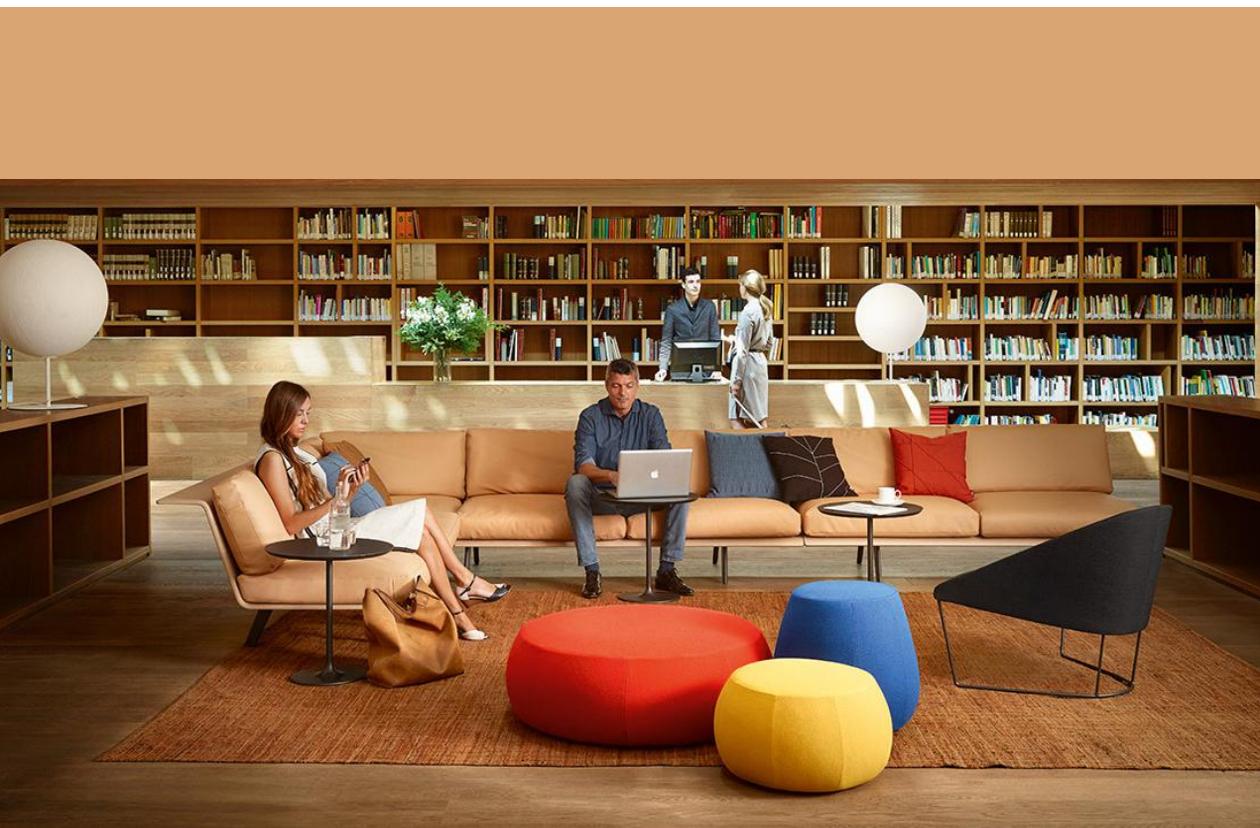

Relax & Revive

When it's time to sit down and collaborate, you need a space that encourages productivity. Our carefully considered combinations of integrated technology and adaptable design will nourish impromptu encounters and create magnetic touchdown spaces for mobile workers. Make your space one that sparks ideas by creating the perfect atmosphere for the three Ts – think, tech and talk.

Collaborate

Whatever's on the menu, make sure your café or dining area is just as appetising. We'll advise you on the right ingredients to create the perfect blend of ambiance, comfort and individual style.

Eat & Drink

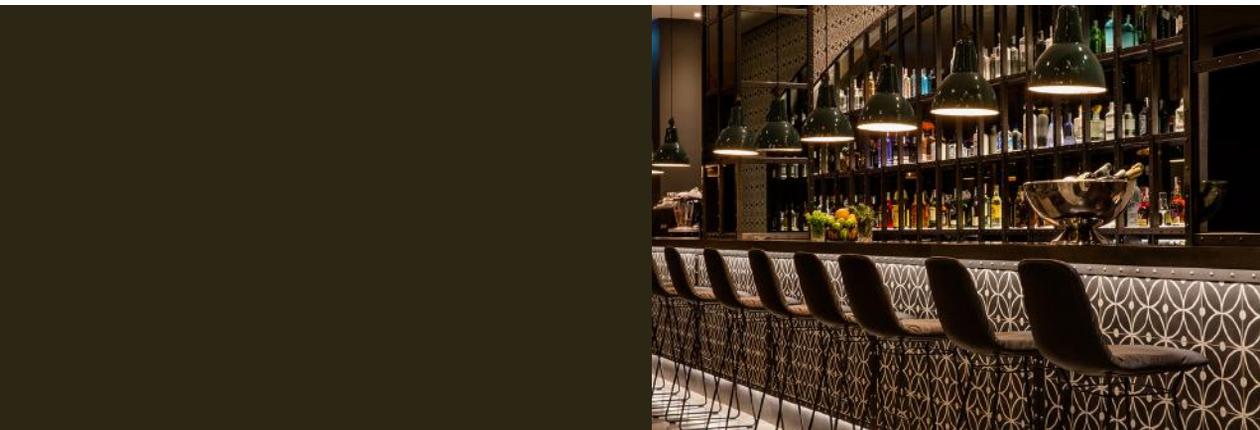

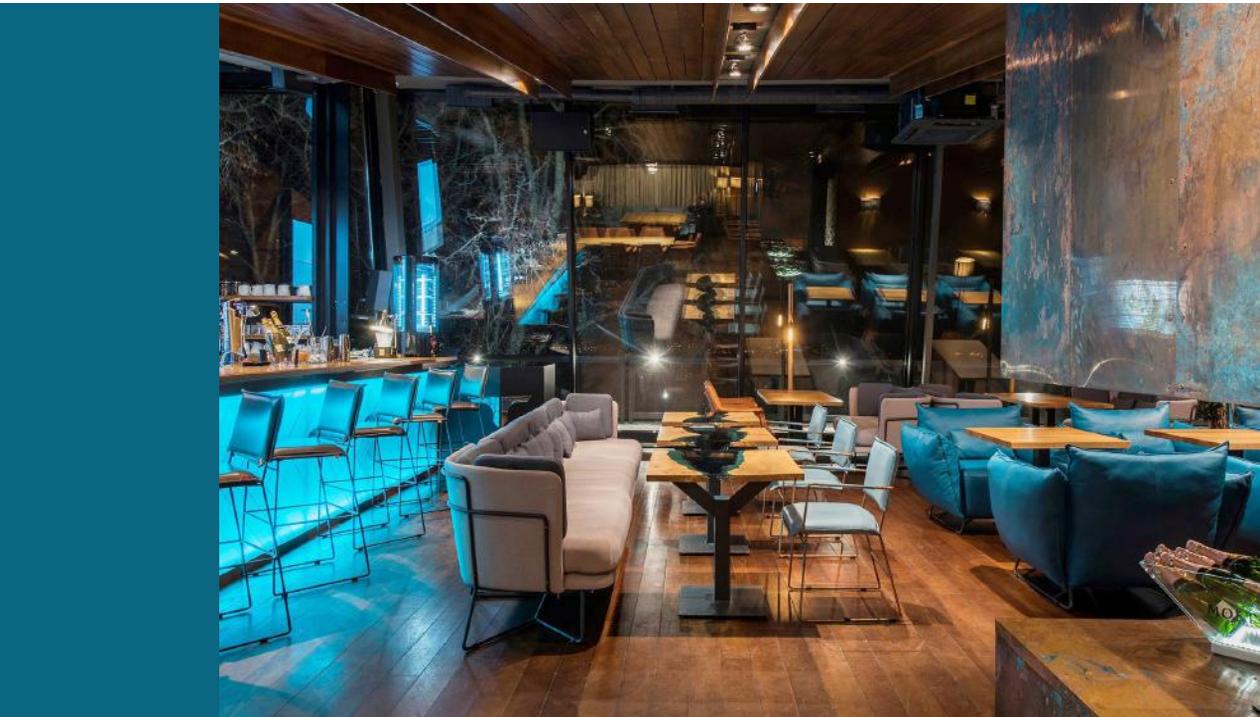

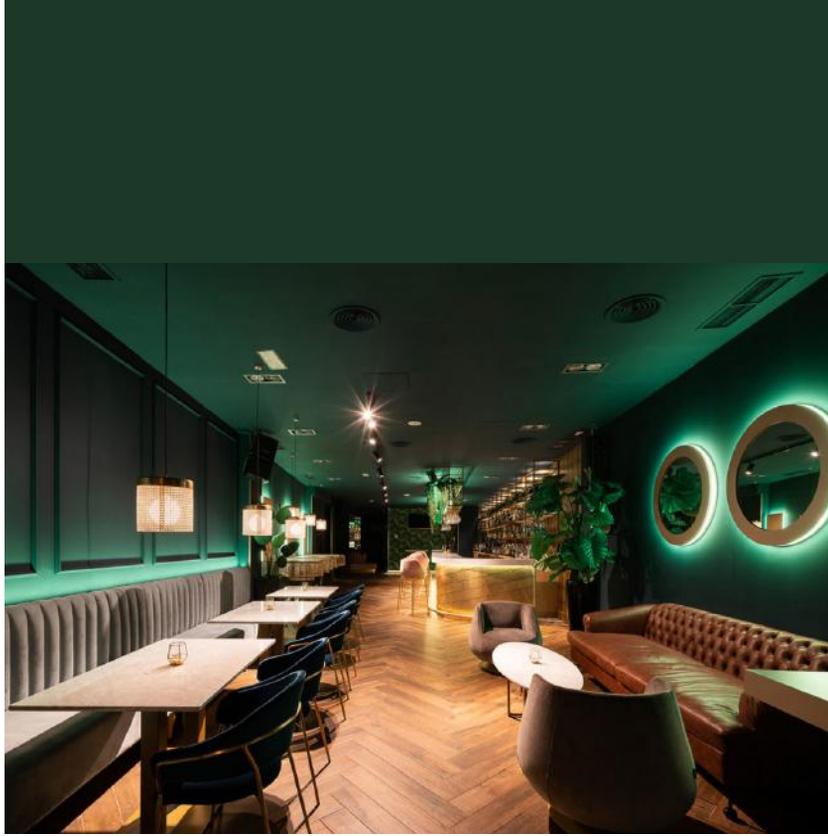

Take this opportunity to make a statement by creating the perfect place for shared moments. We'll guide and inspire you on the journey to creating a dining stage that reflects your brand's unique personality.

Your bar should be an invitation to unwind, feel at home and get lost in colourful conversations. The atmospheric centre of your business, every curve, colour and texture of your bar furniture matters. We'll help your guests settle in to a space that sets the scene for thriving sociability.

Unwind

Solutions For
Every Space

Fresh air calls for fresh thinking. A beautifully designed, visually rewarding outdoor space can transform conversations and create cosy feelings of contentment, regardless of the temperature. The sky is your only limit.

Step Outside

From training to workshops, seminars to breakfast briefings, your meeting zone needs to get others in the zone. We have a passion for creating solutions as unique as your needs. Choose from tables available in a variety of heights, surfaces, shapes and sizes to fit your space, your way. From lounge tables to flexible conference areas, form and function shall blend beautifully into one.

Meet

Help your clients make a statement before they even say a word. Flexible tables and seats are crucial, but we don't believe practical solutions have to be personality-free. With our help, your furniture won't be the most boring thing about the conference.

When your bedrooms speak, make sure they say 'relax, you've come to the right place'. Create places of rest that are both sleep savvy and tech savvy, with impeccable style and thoughtful design touches. Instagram ready, check!
